Vote, and vote the ficket, the whole ticket, and nothing but, the ticket, Pealty to the party, justice to the men whom it has nominated, and good of the Republican cause demand it! Vote. day of election. It will be found at the pulle this morning engraved in such a way that it cannot be counterfeited before night. The cannot be counterfeited before night. The purious affers read in various way. Some spurious affairs read in various ways. Some of them have Higgins and McAllister for Judges, with Butz and Hawley for Clerks. Others have Higgins and Blackwell; others floodischy have Higgins and Buckers or cried ground and MoAllister, etc. A large redition seems to have been printed with Buts and Thursh for Clerks; others have Buts and Hamilton, and others O'Hara and Hawley. All these fraudment affairs, it is needless to say, are gotter the begandedon or consent of the up without the knowledge or consent of the Republican candidates. Vote only for the icket at the head of this paper DRICH, BUTZ and HAWLEY. No man in Chicago has a more reputation as a lawyer, citizen and honest man than the Republican nominee for Judge of the Superior Court, GRANT GOODRICH. He is nown to all the old and many of the later cit zens, and regardless of party consideration he ought to and will command a large Den cratic vote. But he will not be elected if Re publicans stay at home. The ticket is Higgins and Goposten, Borz and Hawley. Be sur We are glad to see that the Times, after having denounced in bitter terms the Democratic Convention for the nomination of "partisar Judges," comes heartily into the support of the "Danite" nominees. That is well; it summers to the "Danite" nominees are growth of the Bachanan influence and gratiers all the opponents chanan influence, and gathers all the opponents of the Republicans into one group, where they can disposed of at a single shot. But let it be remembered that the election of Blackwell and McAllister will be claimed as a triumph of Leib THE CHECAGO HER ALD.

This paper has come out in new type and enlarged to about the size of the Times, which sheet it bids fair to surpass in all the elements of a straight-out pro-slavery organ. It last number contains a sneering article on the subject of certain anti-slavery prayer-meetings, reseatly instituted or talked of in Dr. Cheever's thurch in New York—done in the choicest doughface dialect. The Herall says its circulation is extending rapidly, and that it has no intention of dying—both of which we deem unfortunate to the sity and State. It "pitches into" the Times with a good deal of carnestness, and charges it with black-mailing certain candidates for office. It is a pity, the select circle constituting the Democracy of Chicago cannot maintain better family relations. THE CHICAGO HEBALD. JUDGE WILSON'S CHARGE. We print in another column of this paper.

been maturely consiered and disposed of, but from the evidence laid before us in relation to this case we are of the opinion that the court in calling our attention to the case, and that the District Attorney in his "effort before our body in bringing the evidence before us, have acted faithfully in the discharge of their official du-ties."

I had hoped that the public would hear no more of this disgusting scene, but this same editor has continued, his attacks through "his

our present Mayor will co-operate with ma courts and its officers in making use of all "proper means" for the preservation of the public peace.

Many good men ask why it is you punish mail offenders, who, from misfortune, are induced to steal some small articles to keep their childran from starvation, while the fathers of insquity—those who commit great offences—those who, with their wealth and influence, corrupt the very air which sustains their lives, and destroy all who are weak or vile enough to adopt their helish devices, go unpunished?

The answer is, that when the officers of the law wenture to call in question the constue of the last named class, many who pass for good citizens, will say, we all know that every thing this man is charged with, is true. Every body knows it, but why attempt to punish him, he is rich? he has influence, he is smart, he has covered up his tracks, you can't catch him, and whoever attempts it will come off second heat; and some of our "best citizens" and "greatest tax-payers" will perhaps say he owns a mewapaper; he will manufacture public opinion and destroy all courts and officers who attempt to bring him to justice; others will say why this man is a great political manager and a good leader, we can't afford to see him. These officers of the law are trying to rain the party.

It is humiliating to confess that whenever our sympathies are moved in behalf of some unfortunate small offender, this same class of croakers tell us, this work do, crime is becoming prevalent, we are over-run with rascals, you must hold them to the letter of the law—"Take the last pound of flesh."

Gentlemen of the Grand Jury, these things ought not to be so.

The necessary result of such a practice would

The Island of Hayti was discovered by Columbus on the 5th of December, 1492, and named by himself 'Hispanicia, or "Little Spain." Here was planted the first Spanish colory in the new world, and here was the inolony in the new world, and here was the in cotony in the new world, and here was the in-stitution of slavery first engrathed on the West-era Continent. The Spaniards gradually ex-terminated the aborigines, and possessed themselves of the whole island. In 1630 the French settlers driven from the island of St. Christopher, established themselves on the Consistoner, established themselves on the western part of Hayti, and joining arms with the freebooters on the seighboring island of Tortuga, they made themselves the terror of West Indica under the famous name of "Buc-

West Indies under the famous name of "Buc-cancers," In 1773, Spain coded the western part of the Island to Prages. The population of the whole island was then something over half a million, consisting of whites, negro-alizes and mulatices. When the French Rev-leting broke, out, the slaves revolted, and successfully threw off the rule of their masters throughout the Island. They sent a deputation to France to amounce their practical interpre-tation of Liberty, Equality and Francenity, and to claim recognition among the nations of the world. They were received with entire good will by the French people and the leaders of the Revolution. Their chief, Toussaint, afterward surnamed L'Ouverture, who had organized and led the rude forces which had emancipated the rule torces which had emanci-pated the island, was elected President. Under his administration the republic throve wonderfully and atmined the position which the Haytiens still claim for it, of the "Queen of the AntiDes." When Napoleon became First Consul be sent two expeditions to re-enalave the negroes. The first one was

completely routed by Toussaint. The second and stronger one under Gen. Le Clere, was several times defeated, but Toussaint was finally captured by the treachery of his ene. ies under a flag of truce, and sent to France. He was despatched by Napoleon to a dunge in the Alps and starved to death in his or ficer, who drove Le Clere out of the island ice and elected Dessalines Gover for life. Nothing of great moment occur from that time until 1814, when the eastern panish part of the island revoluproclaimed the Dominican Republic, with Gen. Pedro Santana for President. Santana is now though two others have been elected at his own request since 1844. The Emperor So louque, of Hayti, has attempted twice to re-conquer Dominica, but was easily repulsed by Santana. Both the Republics have been re-

zed by the United States, by reason of th negro equality" which prevails there, not percantile interests of the North. Naturally enough almost all the foreign commerce of Hayti goes to those nations which recognize precious and useful metals—gold, platina, sil-per, quicksilver, copper, iron, tid, sulphur, rock salt, marble, and various ornamental stones. It is also noted for its mineral springs. The ports of Dominica in 1852 amo \$1,614,000. The population of the island at the present time is estimated at about one mil-lion, and it is stated by intelligent visitors to

e capable of supporting ten times that num ticle in the Feuille du Commerce, which ec the invitation extended to the colored races of

America:

"Hayti will soon regain her ancient splender. This marvellous soil that our fathers, blessed by God, conquered for us, will soon yield to us the wealth now hidden in its bosom. At the Opposition Ratification meeting in Richmond, on the night of the Tthuit., the following remarks 176m Hon. A. H. H. Stuart, exSecretary of the Interior, are reported:

"Losing sight of all the great industrial interests of the country, and professing to be the exclusive guardian of the peculiar institution of the South, the Democracy has adopted as its eardinal measures the acquisition of Cuba, perfas aut nofas: the repeal of the laws probibits ing the African share trade; the segure of Sonora and Chihuahna by force of arms; and the invasion and occupancy by lawless maranders of the territory of our friendly but defenceless neighbors of Central America.

"At home we find the same party, at one servino of Congress, repealing the great measur of pacification—the Missouri Compromse—the repeal of which the Virginia Legislature had pledged itself, but a few years before, to resist at all hazards and to the last extremity, and affirming, ass fundamental srigle of their faith, the absence of all constitutional power in Congress to intervene in the Territories for or against Stavery; and at the next session, we have seen the same party attempting, by the intervention of Congress, to force the Lecompton was extended to the remaining the remaining the properties of the company of make very strenuous efforts to prevent the ameration in the remaining the Tudians of the Plains.

Defeated in this iniquitous measure, they now, in the face of their former dogma of non-intervention, demand that Congress shall pass laws, repealing the acts of the Territorial Legislature, and substantially establishing, by Congressional legislation, Slavery in the Territories.

"What combinence can be placed in a party thus regardless of its own plighted faith, and of all the obligations of the Constitution and of common honesty?

War Among the Indians of the Plains. From the St. Joseph (Mo.) Journal March 81.]

By a letter received from our correspondent "Missouri," dated Lone Star, N. T., March 191.; we learn that an Indian war, on an extensive scale, is on foot among the various tribes of the plains, headed by the Minnecongues, a part of the Sioux tribe, numbering eight handred lodges; and negotiations are now pending between them and the Cheyennes, Arrappahoes, Crows and other tribes. A long falk was to come off in a few days after our correspondent wrote, when it was thought they would inform the start of 135 Lake Street, SPRING GOODS.
